

Churn Prediction Analysis Report

Generated: June 02, 2026 at 10:53 AM

Report Type: Customer Churn Analysis

Executive Summary

No prediction data available for analysis.

Model Performance Analysis

Model	Accuracy	Precision	Recall	F1-Score	AUC
Naive Bayes	1.000	1.000	1.000	1.000	nan
Neural Network	1.000	1.000	1.000	1.000	nan

Recommendations

Immediate Actions:

- Contact high-risk customers (>70% churn probability) within 48 hours
- Offer personalized retention incentives to moderate-risk customers
- Implement proactive engagement campaigns for at-risk segments

Long-term Strategies:

- Enhance customer experience based on key churn indicators
- Develop predictive intervention workflows
- Regular model retraining with new customer data
- A/B testing of retention strategies
